

## **Clinical Practice Regulation for International Students of SHUTCM Long-term Advanced Study Program**

The following regulations are aimed at conducting the management of international students' clinical practice in the Advanced Study Program.

1. International students who are applying for the clinical practice must meet the following qualifications:
  - A. Study duration of English-taught or Chinese-taught advanced courses is no less than two academic years.
  - B. Full-payment students (including exchange students, government scholarship students etc.)
  - C. The completed credits are no less than 50 (while the credits of clinical practice is not included).
2. Students shall apply for the clinical practice to International Student's Affair Office at least six to eight weeks in advance. International Student's Affair Office will provide the related information and materials for the Education Center so as to make arrangements.
3. Students' choices of practice hospitals or departments will be considered as only a reference, but will not be necessarily approved.
4. Only one department will be arranged for the clinical practice, two weeks in total.
5. Chinese-taught advanced students can apply for the clinical practice any time in one academic year. Independent group practice can be organized for 5 students or above. Students will join in full time undergraduate's probation if it is less than 5. Special requests need to be authorized to arrange independent group practice for less than 5 students.
6. Non-Chinese-taught advanced students (including English-taught advanced students) share the same practice schedule with the full time English-taught undergraduates.
7. If any students break rules or violate regulations of the university or hospitals during clinical practice, their practice will be terminated.
8. To extend the practice or to join more departments, students shall submit new application to Short Term Training Department. Applications should be made two weeks in advance. The fee will be in accordance with short-term training standards. No application fee is required for this application.
9. Above regulations are only for the clinical practice application. Long-term advanced students can not apply for Humanity Social Practice.
